## Money Very Slow In Rescue Squad Drive in August

### Contributions for Upkeep Of Organization Less Than Last Year

According to a report made today by Ed J. Sletten, treasurer of the Antioch Lions Club Rescue Squad Fund Committee, contributions for the upkeep and maintenance of the squad have hit an all time low for the first four weeks of the annual drive. Sletten reported that money collected to date amounts to less than \$500, and that at the end of the same period of last year collections were more than three times this figure. He added that unless something can be done to speed contributions, there will not be sufficient funds for the payment for the new truck and equipment which is at present being built.

About \$1500 annually is needed for the ordinary expenses of the squad for supplies, equipment and other expenses in maintaining the twenty-four hour, seven-days-a-week service to the whole community, and while sufficient funds are available for ordinary expenses, large amounts will be needed to pay for the new truck and provide suitable housing for it.

Sletten urged that all who intend to contribute to this cause do so at once, in order for the committee to formulate plans for extending or intensifying the drive if such course seems necessary.

Names of those who have already made contributions to the drive follow. Additional names will be published from time to time as gifts are received.

Paul and Charles Ferris, Einar Sorenson, Burnett Smith; Celia D. Ambrose; Harry Wallace; Women's Club of East Loon Lake; Vernon Rogers; Viola A. Loy; F. Fleider, Sr. Mrs. Theresa Culbertson; James Van Cura; Mrs. John Fohman; C. P. Tossey; Lee Swanson; W. S. Darnaby; Otto E. Thiele; Mr. and (Continued on page 5)

## Ask Assurance That Village Garbage Dump Will Be Supervised

### Ida Ave. Property Owners Get Promise of Board Of Trustees

Property owners on Ida ave., appeared before the village board Tuesday evening asking a statement of plans and regulations for the proposed garbage dump on the city park grounds east of the Soo Line tracks.

They were assured that the place would be a land-filled dump starting at the far side of the field and not at the gravel pit.

While the board denied that it had taken official action, it said that plans were made to have certain days and hours in which the Antioch public may bring garbage to the dump and there will be a man there to supervise its disposal. He will see that the garbage is covered.

Guarantee that the garbage would be land covered did not keep Trustee Merrill Cunningham from saying that some garbage would be burned, a comment which his colleagues tried to qualify by saying that papers and inflammable materials were meant.

#### For Antioch Only

The board guaranteed the townspeople that the dump would not be for use of outsiders and would not degenerate into the kind of dump the one south of Rte. 173 turned out to be.

Trustee Cunningham said that his neighbors and many others have been burning garbage of a highly offensive nature in their lots and that the village dump would be far better.

Fear of depreciation of property was scouted by Trustee Winsor Dalgard who said his property is closer than those who were complaining and he had no fear.

Father Joseph Savage who owns half of the property on Ida ave., suggested that there be an ordinance controlling the burning of trash because escaping flames had destroyed 41 of his evergreen trees, of which he now has 1,300. He said he is considering selling about 25 lots in the area for residences and was glad to have the assurance of the nature of the garbage disposal place.

## Regal China Co., Latest Burglary Victim; Loss \$103

Lending additional pressure to the growing demand for additional police protection, in Antioch, was the burglary of the Regal China Company plant early last Sunday morning. Loss was limited to a petty cash box which contained \$103 and four valuable wrist watches which were the property of David Kravitz, plant manager.

Since no other part of the plant was disturbed and no attempt to open the safes, it is believed that the thieves are the same who have been responsible for burglaries at various places of business in Antioch during the past few months.

The robbery was discovered when two Antioch boys found the cash box near the Soo Line tracks on Sunday morning.

## Fishing Rodeo Extended To Oct. 15 at Request Of Many Fall Fishermen

The \$50,000 Illinois Fishing Rodeo, scheduled to end September 15, has been extended another month.

Director Livingston E. Osborne of the Illinois Department of Conservation, sponsor of the unique contest, announced the extension to October 15 coincidentally with reports from conservation officers of a marked improvement in fishing conditions throughout the state.

The extension of the competition, which has developed into probably the greatest event of its kind ever conducted, was granted in response to requests by many anglers who pointed out that fishing in most Illinois waters is at its best in autumn.

As a result of an increase in fishing interest brought about by the state rodeo, a number of resorts and recreation centers which usually close following Labor Day have decided to remain open longer this year.

Among the tagged bass, pike, bluegills and crappie still to be caught are seven "jackpot fish," the first of which to be captured will net some lucky fisherman ten valuable prizes, and "Queenie," the big black bass of Round Lake who carries an outboard motor tag in her gills.

Boats, motors, rods, reels and many other outdoors items will be awarded to anglers catching any of hundreds of other prize fish still swimming in waters throughout the state.

## Little Silver Lake Park Organizes Association

Incorporation papers have been taken out for the Little Silver Lake Improvement association, a non-profit organization designed to preserve maintain and upkeep the streets and parks of the subdivision known as Little Silver Lake Park.

Joseph F. Klein, George Christensen and James H. Harvey head the organization with Edward C. Jacobs as attorney.

#### Racing Season Over Sunday

The motorboat racing season for the Chain O' Lakes region will come to a close Sunday with a series of races at McHenry. The program will be sponsored by the McHenry business men.

The Chain O' Lakes Boat club will have its election and installation of officers Saturday evening, Sept. 18, at the Riverside hotel, McHenry. It will be a dinner meeting.

## Palomino Horse Show and Cattle Exhibit Sunday To Be At Chardon Farms

The finest Palomino horses of the west will be exhibited Sunday, Sept. 12, at the Chardon farms, 2 1/2 miles west of Ivanhoe on Rte. 59-A.

Beginning at 10 a. m. halter and color classes will be shown and at 1:30 p. m. walking horses three and five gaited classes will be paraded. One of the most colorful events is the silver mounted parade class.

Lunch will be served at 12 o'clock. Chardon farms also has extended an invitation to the public to see their purebred Hampshire swine, and Hereford cattle. The herd boars used are Tru-Mold, Iowa grand champion and the Specialist. The Hereford cattle are sired by Chardon's Star Triumph, and W. H. R. Proud Mixer.

## Requests for Water in Antioch Hills, North Ave. Made to Village Board

### Persons Outside Village Get Cheap Water by Clumbing On One Meter

The problem of supplying water to the neighbors of the village came before the board last evening in a big way.

E. M. Melahn of Algonquin, Ill., part owner of Antioch Hills subdivision, asked the village to consider supplying water to that area which comprises 150 lots between Rte. 21 and Antioch Lake south of Rte. 173.

Trustee Walter Scott, sitting as mayor protem, said that the village would have to consider either annexing the subdivision or making a contract with them to supply the water with the alternative of turning the realtors down.

Melahn admitted that he had already obtained the pipe for the water mains, but said in event he was denied the service, he could easily find a market for the pipe which is in much demand.

Scott indicated that a special meeting would be called to consider the proposition during the week of Sept. 16 to 23.

#### Wants To Sell Land

Melahn said his firm also owns the land west of the lake and that as of Tuesday he was offering it for sale. The Antioch Hills subdivision was opened up a number of years ago and there are a few houses in that region. Latest maps show lots fronting on the lake and Melahn talked of the good fishing there.

A second, and more ticklish problem was the report that persons living north of North Ave., are clumbing in obtaining water through one meter at the total cost of \$2 a month.

Trustee Winsor Dalgard said that four persons are sharing the cost of water by hooking on their lines to a line for which there is a single meter and the meter is broken so that nothing but the minimum of \$2 is charged.

#### Cannot Control Lines

When demand was made that all be made to have meters, the trustees were reminded first, that they have no power of control of water outside the village limits and that all they can do is to turn off the water if the patrons don't make satisfactory settlement, and second, meters are at a premium and cannot be purchased within six months time.

A committee will attempt to deal with the patrons in this situation and will determine whether or not service will be provided and at what cost.

Within the city limits, yet enjoying no such privilege are certain residents of North ave., who were told again last evening to get up a petition for both water and sewer and in event three-fourths of the property owners sign, the sewer and water service can be installed at their expense.

At present a two-inch line runs to that neighborhood, which is entirely inadequate at present either for common water usage or for fire protection. The area is without fire protection. James Horton, who is building a new home there, appeared before the board and said he would try to get up a petition. The entire area is in danger of fire from grass fields.

## Fire Department Receives Seven Calls in Five Days

Starting with Sept. 2, the Antioch fire department responded to calls every day for five days.

Early last Thursday morning a run was made to the home of Miss Ethel Adams where it was found that the motor in a refrigerator had burned out. Miss Adams awoke at 5 a. m. to find the house filled with smoke. Other than the motor, there was no loss.

At 11:25 that day a run was made to the Pickard Pottery plant in extinguishing a grass fire.

On Friday the department went to the aid of the Bristol department in fighting a blaze that consumed two barns on the Babor farm at 5:50 p. m.

A grass fire at the Ackerman property in the rear of Dr. Hays residence necessitated a call of the department at 3:15 p. m. Saturday. Another grass fire at the Shannon subdivision on Channel lake, was given attention Sunday, and on Monday a grass-pest blaze at the Minto subdivision on East Loon lake ended the series.

## Patsy May's Rescue of Brother to Be Broadcast From WCFL Saturday

### Abbott and Costello Show Will Tell Millions of Girl's Heroism

The heroic rescue of 13-month-old Jimmie Cummings by his 4-year-old sister, Patsy May at the burning of their trailer home at Ravenglen farms, Hickory Corners will be dramatized over radio Saturday morning in the Abbott and Costello Kid show.

One of the outlets of the American Broadcasting Co., in its coast-to-coast radio hookups is Chicago's station WCFL at 1,000 on the AM dial, and the schedule calls for the broadcasting of Patsy May's story at 11:30 a. m.

Mrs. Elsa Cummings, mother of the two children, hasn't heard anything more from the broadcasting company since her letter of Aug. 20, but she presumes the program will be as planned. Patsy will be eligible for prizes as the result of the broadcast, but it is not known what they will be.

The campaign to obtain cash contributions in aiding the family as the result of its loss of home and personal belongings and in recognition of Patsy's heroism will be brought to a close Sept. 20. At that time cans left at business places for voluntary contributions will be collected.

## Demand Made for More Police Protection by Younger Board Members

### City's Financial Condition Warrants Extra Man If Desired

Irked by the repeated burglaries, purse snatching, and traffic violations, the younger members of the village board Tuesday evening demanded additional police protection.

To prepare the way financially, the board assigned payment of its force from the following funds: Fred Peterson, parking meter fund; Sheridan Burnett, general fund; William Thieman, water and sewer fund. This left more money from the parking meter fund to pay for the additional patrolman, whom they insist must be a young man of mature judgment and experience.

"We need more than mere parking meter readers," insisted Trustee Merrill Cunningham.

The trustees said that speedsters have defied the present police officers, and that crime is on the increase.

The board plans a meeting with the Lions club in which a proposal that the club provide a patrol car if the village pays the patrolman.

Some doubt was expressed as to whether one patrolman would be enough because he could not handle a car and a prisoner at the same time. In cities night patrol cars always carry two men.

The new man here would operate mostly at night.

It was announced that the village only owes a payment and a half on the parking meters and after that it can expect \$800 a month income for police costs.

The financial report shows \$8,000 in the general fund with new tax money yet to come in.

## HELLO FOLKS:

By Ray Cobb

Antioch American Legion Post 748 would like to extend its thanks, and congratulations to the officers of the 10th District who officiated at the installation of our officers. At a joint meeting of the Auxiliary and the Post a very solemn and touching ceremony took place. We would like to welcome our new Commander, Ray Morton and the Auxiliary president, Mrs. Lucy Himmens, and pledge our assistance in the year to come.

We have the honor of having three of our members elected to the body of 10th District officers, Everett Hatfield as Sr. Vice Commander; Edward Jahneke as assistant sergeant at arms and Carolyn Horan as 10th District Director. We're very proud of these people as this is quite a distinction.

We would like to congratulate the Legion Auxiliary for having a 100% paid-up membership. Needless to say, the Legion doesn't have this percentage and consequently are starting a membership drive. New members would be welcome and we would like a 100% turn out of our regular members at our next meeting.

We would like to make a correction on our column of last week. The Mardi-Gras in Chicago was not sponsored by the Lions club as stated but was sponsored by the Lyons Band Instrument Company. The judging of this musical fete has not been ascertained at the present. Bill Johnson, in charge of the Drum and Bugle Corps reports a wonderful time was had by all. He would like to extend his invitation to all local amateur buglers and drummers fourteen years of age or over, to contact him for an audition for a place in the Drum and Bugle Corps.

We're looking forward to the convention this weekend and our goal is the prize money offered to the best Rifle Squad. We had a wonderful cheering section of home towners the last convention. Again we extend to you, the invitation to attend our annual convention Sept. 10-11-12.

## New Fire Station to be Completed Oct. 1 Board Informed by Contractor

With the building at the stage where workmen are ready to hang the large doors, the village's new fire station is about three-fourths finished, the village board was told Tuesday evening. The building will be completed Oct. 1.

Ed Kidera, contractor, talked over the work on the building with the board, reporting that he had an excellent job on the basement floor but that the upper floor was not to his liking. In exchange for this situation he offered to damp-proof the walls without cost.

The contractor also asked whether the board wanted the full 27 1/2-foot chimney or not as the original plans called for. He said that he now has the chimney 15 feet tall and that the full height will not be necessary unless another floor is added. He said if he didn't lengthen the chimney he would add to the improvement of the front of the building.

Because natural gas is not now available, it is probable that bottled gas will be used until such a time as the natural gas can be supplied. Members of the board agreed that bottled gas would be cheaper.

The trustees have paid Kidera \$20,000 to date which represents the progress on the building.

## Antioch Schools Have Record Enrollment as Classes Are Formed

### Kindergarten Attendance of Of 44 Is Largest in Grade School

Antioch's schools opened Wednesday with the largest attendance in their history.

The grade school is expected to have an enrollment of 324 in contrast to 285 at the close of last year, Prin. Richard Whitacre said.

"Only one class has an enrollment under 30, and the largest, with 44, is the kindergarten. The big increase is in the kindergarten," Mr. Whitacre announced.

The high school will have an enrollment of 285, Prin. T. R. Birkhead announced. This is more than last year. Two hundred and seventy were enrolled the first day and 15 more were expected today.

Both the high school and the grade school are approaching their limit so far as space is concerned.

The weather Wednesday seemed to be a benediction to the end of summer vacation. The cool air spoke of autumn. The children seeing an all-day rain maintained the sky was weeping because of their return to school.

## Antioch High to Open Football Season Next Week at Grayslake Grid

### First Home Game on Oct. 8; Squad of 39 Starts Practice

Antioch Township High school will open its football season Saturday, Sept. 18 against Grayslake Community High on the Grayslake field, Coach Maurice Kruzan announced today.

It will be the first of the two non-conference games that will precede the league schedule, Warren, providing the opposition there on the following Friday, Sept. 24.

The first home game, the homecoming, will be played here Oct. 8, with Palatine of the Northwest conference facing the Sequoias in the first night game.

A squad of 39 has appeared for practice, Coach Kruzan said.

"It is a little too early to tell just what we will have in the way of a team," said Kruzan, "but at present it appears that our team will be somewhat light."

The squad now comprises: Lawrence Reidel, Robert Scott, Thomas Poulos, George Miller, Frank Benes, Arthur Duccummon, Victor Conrad, Algrid Appanatis, Eugene Wiczyoreh, Fred Wolf, Melfred Stillson, Peter Poulos.

Richard Radtke, Irving Buchta, Harold Cardiff, Jack Mahoney, Benno Friend, Marvin Jefferson, Robert Wilton, Charles Haling, William Dunworth, Ralph Yopp, George Masopust, William Wolf, Garry Conrad, Robert Gray, Jack Pregonzer, William Wurster, Thomas Waveland, Bernard Waveland, Bernard Cosgrove, Richard Kelly, Ronnie Nickerson, Henry Palm, Ronald Arndt, Robert Lubkeman, William Paulsen and James Wolf.

The schedule for the year is: Sept. 18—Grayslake, there 2 p. m. Sept. 24—Warren there, 3:30 p. m. Oct. 8—Palatine at Antioch, 7:30 p. m.

Oct. 15—Antioch at Northbrook, 7:30 p. m. Oct. 22—Grant at Antioch, 7:30 p. m. Nov. 5—Antioch at Bensenville, 7:30 p. m.

## Bowling Season to Start Next Monday With Six Leagues for Competition

The bowling season will be on in full blast next week with 300 persons participating in league play at the Recreation Center.

There will be six leagues with 60 persons in a league. The schedule is: Tavern league, Monday night; Women's Friendly league, Tuesday night; Junior Business Men's league, Wednesday night; Business Men, Thursday night and the Women's and Men's Major league on Friday night.

Board to Attend Convention  
The Village officials will attend the thirty-fifth annual convention of the Illinois Municipal League at Springfield Oct. 11 to 13. They have reserved four double rooms.

### The ABC's of Flood Control

It is high time that the flood control problem was clarified in the public mind. And, in its essentials, it doesn't take an engineer or a specialist in the higher mathematics to figure it out.

First of all, the so-called multi-purpose dams the government has built at a cost of hundreds of millions are practically worthless from a flood control standpoint. They must be full of water to produce power. Thus, they have no room to contain excessive flow when the rivers run wild. This was proven in the Pacific Northwest floods of last spring. Grand Coulee and Bonneville Dams were of almost no value, the flood waters simply rolled over them.

Second, it is known that the bulk of soil washing occurs in headwaters and tributary streams, rather than on main streams. The solution for this lies in small dams, and in scientific farming methods which will keep the top soil on the land. Thousands of progressive farmers are doing that successfully now.

Finally, it would be next to impossible to completely prevent flood damage. The cost of building enough storage capacity to contain major floods would be incredibly great. All of the land of America, in short, cannot be protected.

One fact is outstanding—and that is that claims of those who have sold this country socialized power development under the camouflage of flood control have been totally discredited.

\* \* \*

### Get The Facts Straight

There is a good deal of misunderstanding concerning the meat situation.

As everyone knows, meat prices have risen. But so has the price of practically everything else. The price of some other foods—including such staples as cheese, rice, butter, and salmon—have advanced more than meat from the prewar (1939-41) level.

Nobody "fixes" the price of meat. The price is largely determined by what the consumers of the country are willing to pay for the supply which is

available at any given time. About 2,000,000 more people are working now than had jobs last winter. Third-round wage increases have given consumer purchasing power another boost. Thus, the demand for meat is stronger than ever.

On top of that, less meat has been available lately than came on the market last winter. That is the result of a normal seasonal factor, plus the fact that the corn crop was relatively poor last year and great quantities of feed grains were sent abroad in 1946.

As for the future, no one knows. It is predicted that we will have a bumper corn crop this year, which will be a spur to meat production if it occurs. And more adequate production is the answer. The total number of livestock on farms per 100 people in this country is near the all-time low. That is why loose talk about rationing and price controls, which always discourages producers, may actually force meat and other prices to go higher than would otherwise be the case.

\* \* \*

### No Lack of Coal

The idea that coal should be allocated by government order is certainly not supported by any available facts.

Last July 1, our coal stocks totaled 58,000,000 tons—the highest figure since April 1, 1946, and some 8,000,000 tons greater than on the same date in 1947. This is the result of high and sustained production. According to one of the top authorities in the field "There is plenty of coal to take care of all the requirements of this country, plus export demands."

It is recommended that consumers lay in as much coal as possible between now and next winter when the heaviest strain on delivery will be made. That is simply a sound business practice, that industrial and domestic consumers have been following for years. Regardless of the size of our stocks, difficulties would occur if everyone demanded coal at once.

The record of the coal industry has been exceptional—and it has been achieved in the face of strikes and other labor disturbances which have made inroads into production. The last shutdown, for instance, though of only five-weeks' duration, cost the country 400,000,000 tons of coal—and cost the miners \$100,000,000 in wages. Yet the issue which caused the shutdown could have been settled without stopping production if the union had so desired.

We have the most efficient coal mines in the world—and we have the highest paid miners by an enormous margin. They can get out the coal to meet the demand without governmental interference.

## SALEM

Mr. and Mrs. Byron Patrick and Mr. and Mrs. Robert Patrick and son, Garry, spent Sunday afternoon at Lake Geneva.

Mr. and Mrs. Herman Mekow and son, Vernon, of Milwaukee, called on Mr. and Mrs. Alfred Schmidt on Sunday morning en route to Springfield, Ill., where Vernon will attend Ministerial College.

Mrs. Natalie Stroupe and Judith Ann Dix spent this week visiting relatives at Sharon.

Miss Billie Hope, of Cassville, Wis., is visiting her aunt, Miss Olive Hope.

Mr. and Mrs. Orville Riggs are spending two weeks in northern Wisconsin.

Mr. and Mrs. Minor Hartnell, Mr. and Mrs. C. V. Cook and Mr. and Mrs. George Beimer and Mr. and Mrs. E. H. Hartnell and Clarence and William Cook were Sunday dinner guests of Mr. and Mrs. Andrew Fenema, of Kenosha.

Visitors at the Byron Patrick home on Sunday were Mr. and Mrs. Thomas Prescoe, of Chicago, Mr. and Mrs. Stanley Stoxen, of Bassett, and Mr. and Mrs. Robert Nelson and son, Bobbie, of Antioch.

Mrs. Elmer Fleming and children and Mrs. Paul Voss, of Burlington, were guests on Thursday afternoon of Mrs. David Elfers.

Mrs. Byron Patrick and Mrs. Janet Fletcher called on Mrs. Arthur Brandes on Friday afternoon.

Mrs. Nellie Head, of Kenosha, is spending several days with her sister, Mrs. Charlotte Bloss.

Mrs. Louis Slamar and son, Lewis, Jr., and Mrs. Frank Dix were Friday visitors at Kenosha.

Mr. and Mrs. Byron Patrick spent Friday evening visiting Mr. and Mrs. Ray Patrick, of Kenosha.

Mrs. Charlotte Bloss and her sister, Mrs. Nellie Head, spent Thursday with Mr. and Mrs. Harold McSweeney of Delavan.

Mrs. Orville Riggs, Mrs. Arthur Feldcamp, Mrs. Charlotte King, Miss Olive Hope, and Mrs. Byron Patrick attended Eastern Star at Bristol on Wednesday evening.

Salem Center school opened Tuesday with Mrs. Harry Krahn as president, and Miss Dorothy Gilmore as teacher of upper room.

Mrs. Robert Emrie and Mrs. Frank Johnson were Burlington shoppers on Friday morning.

Miss Ruth Jones was united in marriage to Vernon Stockwell on Wednesday afternoon at the Methodist parsonage. The Rev. J. Nicholl officiated at the ceremony.

Miss Ethel Oakfield of LaGrange, Illinois, is spending this week with the Misses Jennie and Josie Loscher.

### Land of Superlatives

**A touch and you GO—  
that's DYNAFLOW!**

YES, it boils down to just about that. You start your engine, set a lever — and from then on your treadle foot takes over.

You press the accelerator — and move softly and smoothly away.

You speed up, slow down, halt completely — and your right foot alone, operating gas treadle and brake, does it all.

How come? Simply because Dynaflo Drive is the one passenger car drive in America that

gets completely away from gears which function in fixed stages.

Changes in the way oil flows, instead of changes in gears, adjust your engine power to your driving requirements.

Whether you are starting out, climbing a hill, surging past others or cruising easily, there's nothing for you to do except feed gas.

For very fast starts, extreme pulls, reserve braking power, you flick the selector lever — and your engine seems suddenly to double in size.

For parking, there is a very special setting, exclusive to Dynaflo Drive, that rigidly locks rear wheels.

Even rough and chattery roads are made smoother by power that flows along through a cushion of oil — your whole car is "sweeter" in its feel, far silkier in its actions.

Quite rightfully is Dynaflo Drive called the most important development since the self-starter.

It's a basically different way of transmitting power — and one you should know about firsthand.

See what your Buick dealer can do about arranging that for you. The merest sample of Dynaflo magic will make you want to place an order pronto, whether or not you have a car to trade!

**Here's your Buick Dealer's Four-Square Selling Policy**

1. NO PRICE PADDING. You receive an itemized bill of sale. We display all prices in our showroom.
2. NO "LOADING" OF ACCESSORIES. All cars are delivered with accessories as ordered; no "extras" except those you specify.
3. NO COMPULSORY TRADE-INS. We will accept your order and deliver your car with or without a car in trade.
4. NO COLLUSION WITH "GRAY MARKETERS." We will not knowingly sell Buick cars to anyone who operates in the "gray market."

When better automobiles  
are built  
**BUICK**  
will build them

# SOCIETY EVENTS

## Miss Bonner Is Bride Of Vernon Stahnke

In double ring ceremony at Millburn church Saturday afternoon, Sept. 4, at 2:30 o'clock, Miss Beryl Dawson Bonner, daughter of Mr. and Mrs. Leslie Bonner became the bride of Vernon E. Stahnke son of Mr. and Mrs. A. E. Stahnke, of Edison Park, with Rev. Lauren H. Messersmith reading the ceremony. The altar was decorated with ferns and large bouquets of white and yellow gladioli and candelabras with white tapers.

The bride, given in marriage by her father, wore a gown of white satin with train and fingertip veil caught to a tiara of orange blossoms and carrying white gladioli.

Mrs. Howard B. Petty, of Urbana, sister of the bride was matron of honor and chose a gown of rose taffeta with matching mitts and bouquet and head band of daisies. Bridesmaids, dressed in identical gowns of teal blue taffeta and matching mitts with head bands and bouquets of daisies, were Miss Evelyn Stahnke, sister of the groom, Mrs. Russell Doolittle cousin of the bride and Miss Marilyn Diehl, of Pekin, Ill., a roommate of the bride at University of Illinois. Warren Stahnke of Edison Park, brothers of the groom served as best man and the ushers were Lyman Bonner, brother of the bride, Richard Bailey and Ray Busch of Chicago. Joanne and Carol Petty, nieces of the bride in floor length yellow dresses were flower girls.

The bride's mother wore green satin with a corsage of yellow gladioli and Mrs. Stahnke wore gray satin with pink gladioli. Hans von Holwede played nuptial organ music preceding the ceremony and the traditional wedding march, he accompanied Frank De Young, who sang "Because" and the "Lord's Prayer." A reception followed the ceremony in the church parlor with young ladies of the Mylo club serving. Miss Arlene Gott, of Waukegan, poured and Mrs. Marion Connolly Wirth, of Gurnee was at the punch bowl.

Miss Alice Denman cut the bride's cake and Miss Thelma Clark was in charge of the guest book.

The young couple left for a short wedding trip. After Sept. 15th, they will be at home in Champaign, where the groom will finish his senior year at the University of Illinois.

## Miss Bettebell Johnson Is Recent Bride, Sept. 3

On Friday, September 3, at 2:30, Miss Bettebell Johnson, of Kenosha, became the bride of Joseph Oliver Souza, of Patterson, Calif., at the Congregation Church in Kenosha, the Rev. Cody performed the ceremony.

A garden reception was held at the home of the bride's cousin, Mrs. James McMillen, of Antioch, from 4 to 6.

The bride wore a blue jersey dress trimmed with silver and an ostrich feather hat. Their attendants were Mr. and Mrs. I. C. Hunt, of Waukegan. Mrs. Hunt wore a beige dress with brown accessories. The bride's mother, Mrs. Holger Peterson, of Kenosha, was attired in navy blue.

The Souzas will be at home at 742 S. Jackson St., Waukegan, Illinois.

## Millburn Couple to Celebrate 45th Anniversary

Mr. and Mrs. O. L. Hollenbeck will celebrate their forty-fifth wedding anniversary with open house for their friends and relatives at their home in Millburn on Sunday, Sept. 19, from 2 to 4 in the afternoon and 7 to 9 in the evening. Miss Abbie Ames was married to Owey L. Hollenbeck, of Pleasant Prairie, Wis., at the Ames homestead at Hickory Corners on Sept. 23rd, 1903, and they have lived in the vicinity ever since. They have three children: Frazier A., of Rutherford, New Jersey; Harmon D., of Minneapolis, Minn., and Mrs. Pat Murphy (Shirley), of Millburn. There are eight grand children.

**Shower For Lorraine Pape**  
Twenty-five employees of the telephone company of Libertyville, Waukegan, and Antioch gave a shower and dinner for Miss Lorraine Pape at Adolph's Channel Inn Thursday, Sept. 2. Miss Pape, a bride of the near future, was the recipient of many lovely gifts.

Guests at Alonzo Runyard home last week were Mr. and Mrs. Ted Hucker and son of Haligen, Texas, and Mr. and Mrs. Sid Kenyon, of Miami, Florida.

## Marjorie Ericksen Becomes Bride of Lawrence E. Yopp

Miss Marjorie Jane Ericksen, daughter of Mr. and Mrs. Paul Ericksen of Deep Lake rd., Antioch, became the bride of Lawrence E. Yopp, son of Mr. and Mrs. Lawrence Yopp of Grass Lake rd. in a service performed at 7 p. m. Saturday, Sept. 4, at the Presbyterian church in Libertyville.

Dr. Melvin A. Pearce of Northminster Presbyterian church, Evanston, officiated in the double ring candlelight ceremony.

Dick Kaufman sang "At Dawn-ing," "Consecration," and "The Lord's Prayer," accompanied at the organ by Hans von Holwede who also played the wedding march.

The bride wore white lace with a long train, the seed pearl head dress matching the pearl in the neck and sleeves. She carried gardenias and stephanias.

The bridesmaids and matron of honor wore fall green taffeta with large picture hats and large bows. They carried yellow roses. Mrs. Lloyd Peterson of Evanston, the bride's oldest sister was matron of honor. The Misses Louise Ericksen, sister of the bride and Trudy Yopp of Antioch and Mary Jane Waitesek, Evanston were bridesmaids.

Edward Smith of Grass Lake was best man. Warren Ericksen, brother of the bride, James Fields, and John Fields all of Antioch, were ushers.

Mrs. Ericksen wore aqua crepe with gold accessories and Mrs. Yopp mother of the bridegroom wore a brown suit with brown accessories. Both had matching corsages of white gladioli and pink roses.

A reception following the ceremony was held in the fireside room in the church. One hundred guests attended.

For her going away outfit the bride wore a navy blue suit, fuchsia blouse and navy blue accessories. After a two week trip in Wisconsin Mr. and Mrs. Yopp will be at home in Antioch.

Mr. and Mrs. William Kufalk and family have returned home from a 4,000 mile motor trip through the West, they visited Colorado Springs, Denver, Yellowstone Park and the Black Hills.

Mr. and Mrs. Harold Johnson, of Rockford, E. Nelson, of Zion, and Mr. and Mrs. M. Hahn, of Chicago, were weekend guests of Mrs. Mollie Somerville.

Harold Atwood, of Channel Lake, left Tuesday for Maiden Rock, Wis., where he will teach History in the Community High school.

Mr. and Mrs. C. W. Wikoff, of Urbana, arrived Sunday to spend a week with Mrs. Wikoff's parents, Mr. and Mrs. J. Rhymer.

Mrs. Charles Stiener of Lake Marie, underwent a major operation at Victory Memorial hospital, Waukegan, Wednesday.

Mrs. William Hansen underwent an operation for appendicitis at Victory Memorial hospital Tuesday.

Mrs. W. R. Williams underwent a major operation at St. Joseph's hospital in Chicago today (Thursday).

\*\*\*

**For Johnny Go-Fast**

Silver-jointed tricycles and little autos are among the new toys for 1948. Literally, the various parts of the frames are stuck together with silver. Silver brazing alloys have been called "hard solders." Melted at relatively low temperatures, they flow almost like water. Capillary action pulls the binding fluid in between the most closely matched surfaces and into the slightest cavity. And this kind of solder is so strong that a film of a thousandth of an inch or less is enough to bind joints which have a strength second only to welding.

\*\*\*

**Tips on Ironing**

Ironing may be detrimental to a few articles such as elasticized portions of garments, fabrics waterproofed with waxes, rubber or other coatings which may melt easily. Study labels of such articles carefully for ironing instructions. Some knit garments may be pulled out of shape by ironing. Don't iron washable pile fabrics such as chenilles or corduroys because ironing will mat the pile. Brush up the pile when thoroughly dry.

\*\*\*

**Legume Value**

Good legumes such as alfalfa or sweet clover improve soils in a number of ways. Their action in fixing atmospheric nitrogen is well known. A less publicized but equally important function of legumes is their effect on the tilth of soils. Legumes increase the granulation of soils, thereby reducing their susceptibility to erosion, increasing their moisture capacity, improving aeration, and allowing better drainage.

## Gigantic Air Show to Be Staged Near Libertyville Friday, Saturday, Sunday

The thrills of an air show and the glamor and color of a Billy Rose production will be combined in the gigantic air show to be staged Friday, Saturday, and Sunday at the Chicagoand Airport, Milwaukee ave., just south of Libertyville.

Promoted by World Airshows, Inc., the three day exhibition will feature Maj. Speed Chandler and his International Flyers.

A nostalgic note will be added by the hot air balloon ascent of Prof. Bernelli, one of the few remaining free balloonists.

Prof. Bernelli toured the country thrilling throngs at county fairs in every state during the days before and just after World War I.

Maj. Chandler, nationally known test pilot and airshowman, has scoured the country lining up the outstanding air acts available.

Something new in air shows will be the helicopter ballet to be performed to the music of Lou Breese and his famous orchestra which will provide interim entertainment during the show.

The show will open at 1:30 p. m.

## 4-H Overseas Relief

Two hundred thousand dollars has been collected by 4-H club members for overseas relief during the first two-year postwar period, according to a report issued by the cooperative extension service, United States department of agriculture. Another important contribution of 4-H club members lies in increasing the local food supply to free more food for export. For the two years 1946 and 1947, they produced 250,000 acres of gardens, raised 18 million head of poultry, 1,450,000 head of livestock, 72 million quarts of food, and dried, froze, or stored 25 million pounds of food.

## LAKE VILLA

Mr. and Mrs. Randolph Matteson and son, Randolph, Jr., came last Wednesday from Cincinnati to spend some time with Mrs. Matteson's brother Dan Boyer and family at Cedar Crest Acres.

Mrs. Hazel Sherwood, of Norfolk, Va., is here to visit her parents, Mr. and Mrs. L. J. Tweed and her sisters, Mrs. Erwin Barnstable and Mrs. Joe Nader.

Mr. and Mrs. Junior Tweed re-

turned last week from a very pleasant auto trip with friends and they visited many points of interest in the western states as far west as Utah.

Mrs. Minerva Hook accompanied by her nieces, Mrs. Simmons and

Mrs. Ellinger, all of Waukegan, were guests of Mrs. Charles Martin at her home last Thursday. Mrs. L. H. Silverman of Kansas City, Mo., is visiting at the home of her brother and family, the Na-

than J. Belsers of Lake Villa.

### Antioch V. F. W. Team Defeats Antioch Boys Club Four to One

The Antioch V. F. W. baseball team scored its ninth straight victory in a row Sunday by beating the Antioch Boys Club 4 to 1. It was more or less of a pitchers duel as the V. F. W. team got eight hits and the boys club seven while Bushing struck out 13 and Olson 7.

Lineup and batting order.

Player	Pos.	AB	R	H	E
R. Corrado	2B	5	1	1	1
R. Scott	CF	2	0	1	0
E. Palenski	3B	3	0	0	0
B. Schneider	C	4	1	1	0
J. Crandall	LF	3	0	1	0
G. Fox	SS	4	1	1	0
A. Bolton	1B	3	0	0	1
R. Wells	1B	1	0	0	0
J. Fields	RF	4	1	2	0
R. Bushing	P	4	0	1	0

Player	Pos.	AB	R	H	E
Phillips	LF	5	1	2	0
Kraft	SS	3	0	0	1
Lubkeman	RF	3	0	0	0
Shank	C	4	0	1	0
T. Poulos	CF	4	0	1	0
Fearon	2B	4	0	1	0
Reickers	3B	4	0	0	0
Mattson	1B	4	0	2	0
Olson	P	2	0	1	0

Two base hits, Corrado, Bushing, Schneider. Struck out by Bushing 13, Olson 7. Bases on balls off Bushing 4; Olson 2. Hit by pitcher Olson (Palenski).

### Panowski Have Twins

Twin daughters were born Tuesday to Mr. and Mrs. Jack Panowski of Los Alamos, N. Mex., according to word received by Mr. Panowski's sister, Mrs. Howard Gaston of Orchard St.

### Plant Poisoning of Animals

Over three dozen different plants are capable of poisoning farm animals. Since livestock usually cannot distinguish safe plants from harmful ones, watchfulness on the part of owners is essential. Arrow grass, cocklebur shoots, water hemlock, larkspur and loco weed are just a few of the many plants that cause huge losses to the livestock industry. Suspect plant poisoning whenever an apparently healthy animal develops convulsions, breathes fast and falls to the ground. At the first sign of trouble the entire herd should be moved to another pasture or lot and a diagnosis obtained without delay to determine the exact cause of the trouble. Once the cause is known, steps can be taken to protect the rest of the herd.

## HEALTH HINTS for LIVESTOCK

PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

### BRUCELLOSIS PERILS PIGS, COWS, PEOPLE

Brucellosis has become one of the half dozen most serious disease problems for American livestock raisers. Primarily, the disease is a threat to

Goats, as well as cattle and swine can carry brucellosis.

cattle and swine—but it can be passed on to human beings, too. A great many veterinarians and workers with livestock come down with undulant fever every year, due to contact with brucellosis-carrier animals.

Just lately, a new complication has entered the picture. Swine, cattle,

and goats are affected by three different types of brucellosis—and the disease has been regarded as not transmissible from one species to another. Now, however, the goat type has been found in swine—and the swine type in the udders of cows.

Brucellosis of both cattle and swine does its greatest damage in causing abortions stillbirths, breeding failures, and sickly young. Also, it causes a decrease in milk output and a general ailing condition.

The control of brucellosis is still largely an individual herd problem to be worked out between the local veterinarian and the herd owner. First, the extent of the disease in the herd must be determined. Then a herd history as regards brucellosis must be established.

The final control program depends on such factors as: the number of reactors in the herd; the age of the animals; activity of the infection; importance of the disease in production and breeding lines; control and proper isolation of newly purchased animals.

The control program may involve both proper vaccination and blood testing. State and federal laws relating to indemnity for culling reactors to brucellosis should also be thoroughly understood by the herd owner.

As long as a single infected animal remains, there will always be danger of spreading tuberculosis to a disastrous number of cattle. The last source of infection must be eliminated before we can let up in this fight.

Periodic testing of herds, on a herd or area basis, is the only way to be sure that new and serious flare-ups of bovine T. B. will not occur. In areas where tuberculosis has appeared in recent years, veterinarians are advising yearly tests. In areas long free of the disease, it may not be necessary to make tests often than every two or three years.

Following the tests, reactors should be slaughtered. Government funds are available to compensate the owners of the cattle thus destroyed.

Livestock health authorities throughout the country are active in efforts to finish off the fight against tuberculosis. With co-operation from stock owners, they believe the job can be done. In the meantime, every cattle owner should make sure that his own animals are tuberculosis-free. By doing so, he not only protects his livestock but the health of his own family.

Cholera, according to these authorities, is the proper time for the first vaccination of young pigs. Vaccination at or around weaning time, for each new crop of pigs, is the surest and most effective precaution against devastating losses from this fast-killing virus.

As an added safeguard against hog cholera, farmers are urged to guard against letting sick swine be brought onto the premises.

There are many ways that cholera can be transmitted from one herd to another. Feces, for instance, may carry the virus. But many outbreaks have been traced to infection carried from farm to farm on the clothing of threshing crews, in uncooked garbage, in contaminated feed bags, on wagon and truck wheels and other equipment.

Still other dangers must be kept in mind. Hog cholera virus and hypodermic needles, carelessly handled by persons without the proper training, can spell disaster. Furthermore, pigs should be given a general physical check-up by a veterinarian to be sure they are in proper condition for vaccination, because if they are not in satisfactory condition, they may not develop immunity.

### NEW 'HOT SPOTS' FOR BOVINE T.B.

Too many people think that tuberculosis of cattle is a thing of the past in this country.

True, this disease has been pretty well beaten—thanks to an intensive

Cattle should be tested periodically.

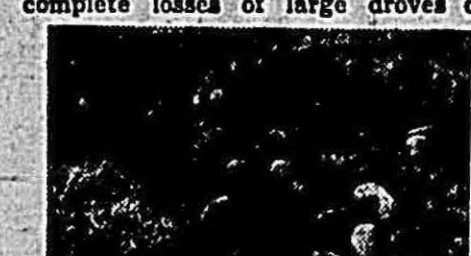

26-year fight by veterinarians, the Bureau of Animal Industry and livestock owners. No county in the nation reports a ratio of more than one case in every 200 cattle.

But the menace is not dead. New centers of infection have been reported recently and veterinary authorities are afraid we may slacken up too quickly in our efforts to control the disease.

### CHOLERA SEASON ALL YEAR 'ROUND

Hog cholera knows no season. Precautions must be observed, all year 'round, if American farmers hope to check the ravages of this deadly virus disease of swine.

Veterinary authorities report that complete losses of large droves of

Even sanitation and clean pasture aren't proof against cholera.

swine, due to hog cholera, have occurred in the middle of the winter as well as during the hottest summer months.

Also, there seems to be no scientific evidence to support the old superstition that the feeding of new corn is somehow related to outbreaks of cholera.

The only thing seasonal about hog

### TOWNSHIP FORUMS HELP SAVE PIGS

Swine raisers are being urged to "get together" this year on methods of preventing another baby pig blitz.

How many will get to market?

like the one that caused disastrous losses in the spring of 1947.

"Township forums" are the latest type of attack on the pig loss problem. Neighbors get together and discuss the problem in a joint meeting with their local veterinarians, extension men, feed dealers and others who have a stake in pork production. All these authorities are giving whole-

### TIPS FOR BETTER CARE OF CALVES

In view of today's high prices of meat and feed, livestock raisers are probably more concerned than ever

Health precautions can save many more calves.

before with the need for raising healthy, fast-growing, vigorous calves. Every calf lost due to mismanagement or disease, before it gets into full production or reaches market age and weight, is a terrific financial loss and a waste of feed.

Steps to assure the best possible calf crop begin with the proper care and feeding of the pregnant cow. Good quality hay, balanced with minerals, vitamins and proteins, is especially important. Dehydrated hay

contains plenty of Vitamin A, for instance, but little Vitamin D. In providing minerals, it should be kept in mind that not only calcium and phosphorus, but also supplemental iron, copper and cobalt, are necessary in some localities. The local veterinarian can usually advise as to which mineral deficiencies exist in any area.

Clean maternity stalls are important, too, to give calves a healthy start, and reduce the danger of joint ill, scours and pneumonia. These same troubles can be caused also by failure to properly disinfect the navels of new calves and keep them away from contaminated premises.

Calf pails should be cleaned thoroughly; milk is an excellent place for germs to grow and multiply. If possible, the colostrum (first milk after birth) should be saved and fed to the calves. Colostrum contains needed vitamins and helps build resistance to infection.

Besides following sound management and feeding practices, the calf raiser should be alert for signs of disease, and take prompt steps if they appear.

### Hit-Run Drivers

Escaping detection is becoming an increasingly difficult task for hit-and-run motorists due to improved police methods. Police now have a strobophotometer that can tell more than 2,000,000 colors apart so that a speck of automobile paint, found at the accident scene, can be compared with paint on various makes and models as an aid in finding the car involved. In addition, a photograph of tire marks generally enables police to learn the make and size of tire.

### Forest Camps In Oregon

More than 250 forest camps are operated in Oregon by the United States forest service. Additional camps are maintained at Crater Lake national park. Oregon territorial centennial visitors in 1948 are invited to use them without fee, with the exception of Crater Lake where a park entrance charge is made, according to the Oregon state highway commission travel information department.

### Uses of Paper

Everyone in this country uses an average of one pound of paper every day. Paper is made into such things as building materials and dish cloths, containers, waterproof maps, newspapers and magazines and hundreds of other products. This year's production may reach 22 million tons.

### High Blood Pressure

When the blood pressure remains continuously high, the heart enlarges. The heart muscle becomes thicker and stronger. This is the direct effect of the greater work required of the heart to maintain an adequate circulation. Your age, plus 100, is not a rule for proper blood pressure. Blood pressure should remain much the same throughout adult life.

### U. S.-Canadian Boundary Line

In 1846 the straight line separating the United States and Canada was extended to the Pacific, giving America sole title to the south and Great Britain to the north.

### Waxed Dustpans

Wax the dustpan; then the dust will slide off much more easily.

## Television Terms

**BANDWIDTH:** The difference in cycles per second between the lowest and the highest frequency of the transmitted band. A television channel is six mc. wide. **BLANKING PULSES:** A pulse used to blank out the electron beam during the return time of the beam to its starting point. **ELECTRIC FIELD:** The region surrounding charged particles. An electric field is set up also whenever a magnetic field varies. Radio waves traveling through space are composed of electric and magnetic fields.

## Who Owns The Forests?

Out of 461 million acres of commercial forest lands in this country, about one-fourth are owned by state, county or federal agencies. These are the publicly-owned forests. Three-fourths of our commercial forests are owned privately, scattered among four and a quarter million separate owners. The greatest amount is in small holdings (155 million acres); the next largest are woodlots on farms (139 million acres), while large owners account for only 50 million acres.

## Cold Cream, Spot Remover

Did you know that cold cream will remove perfume spots from tables or dressers? Apply the cold cream as soon as the perfume is spilled and wipe clean with soft tissue.

## "Overwashing" Clothes

Avoid "over-washing" clothes. Running the washing machine too long adds unnecessary wear to the clothes, wastes electricity, and may even drive soil into the clothes if the water is very soiled.

**Adjudication and Claim Day Notice**  
Notice is hereby given to all persons that the first Monday of October, 1948, is the claim date in the estate of Ann Walters (also known as Anne Walters), deceased pending in the Probate Court of Lake County, Illinois, and that claims may be filed against the said estate on or before said date without issuance of summons. All claims filed against said estate on or before said date and not contested, will be adjudicated on the first Tuesday after the first Monday of the next succeeding month at 10 a. m.

## Beginning of Cricket

Cricket, the game of so much popularity in England, Australia and other British dominions, is of disputed origin. It started as a boys' game, eventually was taken up by adults, and the Test Matches between England and Australia, originated in 1880, aroused enthusiasm in both countries equal to that created by world series play in the United States. Cricket, in both England and Australia, is a sport for the masses, and a great cricket player becomes an idol.

## New Insect Identified

A new insect which attacks about 30 California crops, flowers and wild plants has been found, but is not expected to become a serious menace. It is the omnivorous leaf tier. This pest, long known in Europe, was first discovered in California on flax early in May, 1948. It has been found nowhere else as yet, and has been found only on flax. It was identified by Dr. W. W. Middlekauff, University of California college of agriculture entomologist.

## How Alchemists Helped

Snapshots can be taken today because, long ago, alchemists tried to turn silver into gold, according to the Silver Users' association. They failed to get gold, but they discovered that silver nitrate is sensitive to light. Centuries later, film making became a leader among the many industrial uses of silver.

## Pressure Canning

When canning in a pressure canner, let the water come up two inches on the jar. This will help to maintain an even pressure.

## "Pre-Shrunk" Label

Watch for the "pre-shrunk" label on cotton dresses before purchasing. Without this label, it is difficult to predict shrinkage.

## ANOTHER THORP SALE

Frank Miller, Auctioneer  
The undersigned having sold the farm will sell at Public Auction on the farm located 6 miles southwest of Palatine, 1 mile west of Roselle Road and 1 1/4 miles south of State Route 62 on Ela Road, on  
**FRIDAY, SEPTEMBER 17, AT 12 O'CLOCK SHARP**

the following described property:  
49 Head of Livestock consisting of the following:  
21 Holstein and Guernsey Dairy cows, 7 of these cows have freshened recently and balance are milkers. 1 Holstein bull, 20 months old; 1 Holstein bull, 6 months old; 4 Holstein heifers, bred; 1 Red and white heifer (bred); 1 Holstein heifer; 2 good work horses, average weight about 1400 lbs. each; 2 sows, bred to farrow in October; 16 feeding pigs, average weight 75 lbs. each.  
FEED—1315 bales of mixed hay; 203 bales second cutting alfalfa; 240 bales straw; 30 acres standing corn; 400 bushel 1947 oats; 650 bushel 1948 oats; 40 bushel ear corn.  
MACHINERY—McD. model M tractor on rubber with lights and starter; McD. model B tractor on rubber with lights, starter and power lift cultivator; McD. Model 50-T baler (purchased new in 1947); McD. Model E silo filler with 35 ft. of pipe; McD. 4 roll all steel corn husker; McD. steel hay loader; McD. side rake; McD. corn planter with fertilizer attachment; Case 9 ft. tractor disc; Case field cultivator; Case 2-bottom 14 inch tractor plow on rubber; U. S. grain blower; Case 5 ft. mower (nearly new); Champion potato planter with fertilizer attachment; Boss potato digger; New Ideal manure spreader on rubber; Massey Harris 4-section drag with folding draw bar; 7 ft. Tiger grain drill; Pape hammer mill (extra screens); 2 rubber tired wagons and racks; 6 ft. Cult-packer; rubber tired wagon and grain box; Horse drawn cultivator; steel saw; 15' Grindstone with electric motor; bob sled; cutter; scales; dump rake; rubber tired wheelbarrow; Wayne Air compressor; 100 ft. drive belt; 2 feed carts; bench saw and motor; fanning mill; 2 electric brooders, 500 chick size; other chicken equipment; hog crates; hog troughs; electric fence controller; brooder house 16x10; 12 milk cans; 2 wash tanks; 3 single unit Universal milker outfit complete with motor, pump and pipe line; Monarch combination electric stove; some household furniture; numerous other articles.

### "Three Soo Line Blue Plates?"

Actually, we stop short of serving you at your dinner table. But it's likely we've had a hand in delivering much of the food you eat.

Soo Line trains are busy every day of the year—hauling thousands of tons of food in this rich Upper Midwest area. Livestock, dairy products, wheat to food

processors. Steaks and chops, flour, milk and butter for you.

Maybe you never thought of us as waiters for your table.

That's the way we want it. Our aim is to keep these foods moving so safely and surely that you simply take our service for granted.

Your Working Partner 7 Days a Week

YOUR OLD FLAME HAS THE **New Look!**

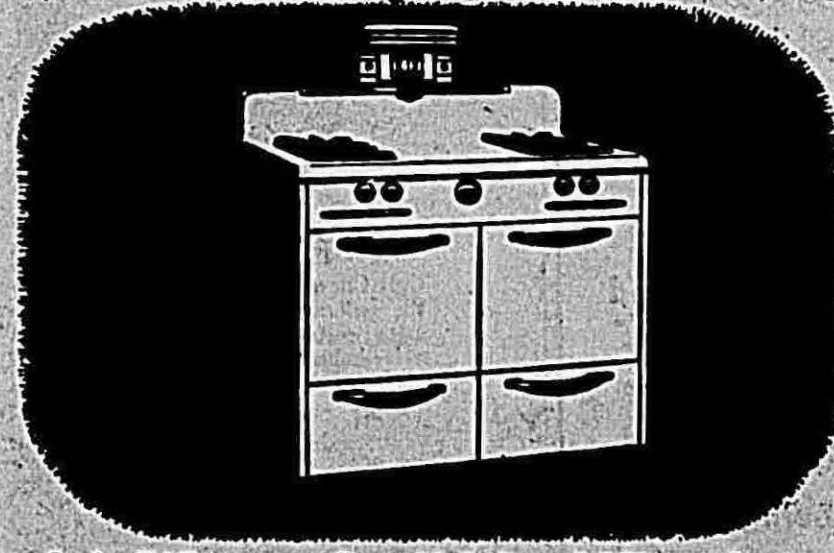

...Better Baking with a  
modern **GAS** range!

YOU'LL FIND every baking session ends with suc-cess . . . when you have a modern GAS range. There's no guesswork—no mathematics involved. Accurate temperature controls give you the exact shade of steady heat you want . . . without hot spots. The ovens of the new ranges are ventilated for uni-form baking . . . thickly insulated for a cooler kitchen and lower fuel bills. A minute minder ticks off the time and lets you know when food is done. Some new ranges have two ovens . . . you can use one for baking and one for roasting. Others have one large oven . . . plenty big enough for an entire, economical oven meal.

You can have automatic oven cooking with your new GAS range, too! While you spend the afternoon shopping, a dependable clock control turns the oven on . . . maintains the correct heat until the meal is done . . . and turns the oven off—*automatically!* Some ranges have a glass window in the oven door . . . you can see what's cooking from the outside looking in. And, of course, the oven—like the burners and broiler—lights automatically!

The New Look in GAS ranges means new beauty plus greater economy. You'll like the rounded edges, sparkling white porcelain, and flush to the wall and floor construction. Yes, combined with their new good looks, to-

day's GAS ranges offer added dependability and economy. So no matter which features you're looking for in a range . . . you'll find GAS has everything! Now you can replace your old range with one that's even more efficient.

Stop in at your dealer's or our nearest store—

### Telephone tips

### How to place a Long Distance call correctly

Suppose that right now you want to call some distant part of the United States. How long do you think it would take?

If you'd say "two minutes," you'd be just about right! Two minutes is all it takes, on the average, to connect you to any telephone in the country, or give you a report on your call.

Some calls go through even faster if you place your call correctly.

#### LIKE THIS

Say you want to call Philadelphia. First thing you do is ask the operator for "Long Distance." (From a dial telephone dial "0" for Operator.) Give the name of the called town first, then the telephone number and the name of the person you are calling. Like this:

"Philadelphia—Walnut 2-0100 (pause)—Mr. A. D. Jones."

Placing your call this way means faster service since with your first word (the name of the city), the operator is "connecting" your line to the line of the city called.

If you merely want to be connected with a certain number, say:

"PHILADELPHIA—WALNUT 2-0100"

This type of call costs less because you are willing to talk to anyone who answers.

If you don't know the telephone number, just give the Long Distance operator the town name, the name and address of the person, business or organization you are calling.

DON'T say, "I want to place a Long Distance call to . . ."

DON'T give your own number to the operator until she asks for it.

#### FOR FASTER SERVICE

Following these simple suggestions will help speed through your calls. We're installing new switchboards and hundreds of new circuits to give wings to your words out of town. We're trying to make your service faster, more dependable, always friendly.

## MILLBURN

Rev. L. H. Messersmith will speak on the subject "A Gospel for Today" at the regular church service Sunday, Sept. 12.

The Pilgrim Fellowship will sponsor a movie "The Mighty Treve" in the church basement Saturday evening, Sept. 11.

Mr. and Mrs. O. L. Hollenbeck, Mrs. Myrtle Savage, Mort Savage, Miss Josie Mann and Albert Smith attended the wedding of Miss Geraldine Webb and Raymond Kneipper at St. James church in Kenosha Saturday morning, followed by a reception in the afternoon.

Mrs. Mina Gilbert, of Waukegan, is spending some time at the home of her daughter, Mrs. Horace Culver. Miss Margaret Gilbert was also a weekend guest at the Culver home.

Mr. and Mrs. C. P. Weber, Sr., and daughter, Sharon and Clifford Weber, Jr. enjoyed a week's vacation through northern Wisconsin.

Mr. and Mrs. Herbert Youngren, of Zion, and Mr. and Mrs. Irwin Oaks and daughter, of Waukegan, spent Sunday afternoon at the J. S. Denman home.

Mr. and Mrs. Roy Bracher, of Libertyville, were callers at the Ed Hoffman home Wednesday evening. Mr. and Mrs. Henry Dekker and children, Robert and Phyllis and Mrs. Mary Dekker, of West Pullman, Ill., spent Thursday afternoon at the J. Kaluf home.

Richard Martin returned to his work at Western Military Academy at Alton, Ill., Sunday, after spending the summer with his parents, Mr. and Mrs. E. A. Martin.

Mr. and Mrs. Hart Webb, Mr. and Mrs. Clarence Webb, of Kenosha, and Mr. and Mrs. Charles Obermiller, of Glenwood, Wis., spent Sunday afternoon at the Savage home.

Mr. and Mrs. John Edwards and family, of Libertyville, spent Friday evening at the Frank Edwards home.

Pfc. Duane Weber, of Scott Field, Belleville, Ill., and Dean Weber, of Chicago, spent a three day weekend with their parents, Mr. and Mrs. C. P. Weber.

Mr. and Mrs. Virgil Mills and son, Virgil, of Webb City, Mo., were callers at the Ed Hoffman home Monday afternoon.

Mr. and Mrs. Victor Whicher, Miss

Evelyn Laycock and Roy Hansen, of Oak Park, spent Sunday at the Lyman Thain home.

Fifty Denman relatives from Arlington Heights, Des Plaines, Waukegan, Gurnee, McHenry Diamond Lake, Grayslake, Antioch and Lake Villa enjoyed picnic dinner and supper at the J. S. Denman home on Labor Day.

Mr. and Mrs. Jack Neahous, of Antioch, and son, Charles Neahous, of Zion, and Mr. and Mrs. Tom Cosgrove, of Chicago, were Sunday dinner guests at the O. P. Neahous home.

Mr. and Mrs. Frank Edwards, Mort Savage and Mrs. Myrtle Savage called on Mr. and Mrs. Robert Simmons at the Art Simmons home in Skokie Tuesday evening.

Mr. and Mrs. Howard Petty and daughters, Joanne, Carol and Julie returned to their home in Urbana, Ill., Sunday evening after a week at the Leslie Bonner home.

Mr. and Mrs. Tom Cosgrove, of Chicago, and Mr. and Mrs. Oscar Neahous spent Monday at the Gus Christiansen home at Union Grove.

Miss Joanne Diedrich returned Monday from a visit with relatives in southern Illinois at Rosehill, Ill.

Ed Hoffman and Mort Savage attended the Cook County fair Wednesday.

Mr. and Mrs. Les Diedrich, Chloe and Charles Diedrich spent Sunday at the Railroad Fair in Chicago.

Mrs. Verlon Groves and Miss Vivien Bonner entertained a group of babies from the Cradle Roll membership and their mothers and Rev. and Mrs. Messersmith at a party on the church lawn Tuesday afternoon with 50 present.

## Beauty Treatment

Natives of the New Hebrides islands bind the heads of newborn babies, says the World Book encyclopedia. The tightly wrapped head causes it to slope backwards. The natives consider slanted skulls a mark of beauty.

## Frozen Onions

Some people believe that onions are poisonous after they have been frozen. This is not true. In fact, onions which have been frozen may even be used successfully if they are thawed out slowly. But they will not keep long after being frozen, says the state of North Carolina extensionist.

## HICKORY

Mr. and Mrs. Gordon Wells and son, John and daughter, Lucille, spent Thursday and Friday at the Wisconsin Dells.

Miss Grace Tillotson and Mrs. Georgia Scoville, of Kenosha, called at the Tillotson and King homes Thursday afternoon.

Mrs. Herman Rompesky and daughter, Mrs. Howard Schaffner and her son, Jimmie, all of Waukegan, visited Mrs. Will Thompson on Thursday afternoon.

Mr. and Mrs. Max Irving and son, Glen, also Mr. and Mrs. Lawrence Loecher spent Sunday at the Elkhorn fair. Mr. and Mrs. Loecher are the couple that bought the Max Irving farm. They moved on it recently from Lake Villa.

Mr. and Mrs. R. C. Bishop, of Kenosha, and their son, Homer, and wife and their children, from St. Louis, Mo., called at the E. W. King and H. A. Tillotson homes Sunday afternoon.

Mr. and Mrs. Andrew Magiera, of Gurnee, and Miss Shirley Wells spent Sunday at the Elkhorn fair.

Mr. and Mrs. Ed Leable with Mr. and Mrs. Archie Webb, of Wauke-

gan, left on Saturday morning on a vacation motor trip to the west coast.

Mr. and Mrs. Roy Heydecker, of Waukegan, were visitors at the Earl Crawford home Thursday evening.

## Fish Instead of Meat

Fish makes a good meat substitute in these days of high meat prices. Many types of fish are cheaper than many cuts of meat, yet the nutritive value of fish is high.

## To Lengthen Blankets

Sew a piece of blanket material taken from an old blanket onto the end of your short blankets to lengthen them. If it is sewed on the end which is tucked in at the foot of the bed, it will hardly be noticeable.

## Forage Poisoning

Cattle are less susceptible to forage poisoning than horses, because the compartment-like digestive system of cattle tends to subdue the poisonous properties of some feeds.

# All America Likes CHEVROLET'S Bodies by Fisher

...bodies that are exclusive to Chevrolet in the low-priced field!

## More Value in Riding Comfort

Your own tests will convince you that Chevrolet's Unitized Knee-Action Gliding Ride, plus Chevrolet's Body by Fisher, result in more riding comfort.

## More Value in Performance with Economy

Only Chevrolet, in its price field, gives you the performance advantages—at low operating costs—of a "World's Champion" valve-in-head engine.

It is not by chance that Chevrolet's bodies by Fisher are so beautiful, so luxurious, so safe! Behind each body is forty years of motor-car coachcraft experience... forty years of building master bodies for precision-minded America. To matchless craftsmanship have been added the methods and the metals of modern body engineering. Today, in your Chevrolet Body by Fisher, you are protected by steel... cushioned by materials that add ease and relaxation to every driving mile. And when you consider that such body-comfort, such body-luxury, such body-safety is available at lowest cost you begin to understand why MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

## More Value in Braking Efficiency

The knowledge that you are operating Positive-Action Hydraulic Brakes in your Chevrolet gives you a feeling of security when driving in city or country.

## More Value in All-round Safety

You ride in maximum safety in your Chevrolet with Fisher Unitized Body Construction, Unitized Knee-Action Gliding Ride and Positive-Action Hydraulic Brakes.

Compare Values!...  
Compare Prices!...

**Bratrude Gets Appointment For Training at Wisconsin**

Don Bratrude, son of Dr. and Mrs. Amos Bratrude of 543 Lake st., who was graduated recently from Knox college with a bachelor of arts degree, has been provided a first year appointment by the Veterans Administration to receive training in clinical psychology at the University of Wisconsin.

The appointment is renewable every year upon satisfactory work and at the end of four years Bratrude will be eligible to a doctor of philosophy degree. He received the appointment on the strength of his high grades at Knox college.

**Radiophones For Trucks**

Many truck operators are making good use of radiophones in their business. One Chicago firm, for example, operates a fleet of 1,000 vehicles, several of which are equipped with the unit. When calls for pick-ups are received, the phone equipped truck nearest the place of pick-up is intercepted and the second pick-up quickly completed.

**Cigar Smokers**

Cigar consumption in 1947 totaled 5,631 million compared with 5,914 million in 1946. The drop occurred despite the high level of personal income.

**First Tin Can Patent**

An English inventor patented the first tin can in 1910. This "canister" was cut out and soldered by hand and a circular hole was left in the top. After it was filled, the hole was closed by soldering on a tin plate disc. An expert could produce five or six cans per hour. Since that time, continued improvements in can making have advanced the number to 20,000 per hour.

**Longest Timber Bridge**

Oldest and longest timber bridge in the world is across Lake Ponchartrain, La. This bridge was built in 1883.

**Red Cross Activity**

During 1947 the American Red Cross recruited 404 nurses to supplement nursing staffs in 35 cities of 18 states where outbreaks of infantile paralysis occurred.

# NOTICE TO ALL VOTERS

Election day is rapidly approaching and you will not be allowed to vote at the November 2nd election unless you are a registered voter.

If you are not registered but you will have resided in the state one year, in the county ninety days, in the precinct thirty days, and will be not less than twenty-one years of age by November 2nd., you should register at once.

If you are registered as a voter and your residence has continuously been the same as when you registered, you will be qualified to vote at the November 2nd election.

**BUT REMEMBER**

If you are registered and have moved to a different residence, you must request a transfer of your registration to your new residence address.

If you are registered but have changed your name by marriage or otherwise, you must cancel the registration under the previous name, and you must reregister anew.

Be sure that you will be qualified to vote, do it now, do not wait and then find out that you are too late.

All new registrations or transfers of registration should be done at once at the Registration Office Room 102, Court House, Waukegan, Ill., or, if more convenient for you, at any of the following branch offices:

Antioch—William Rosing, Main St.

Lake Villa—Arthur E. Bennett, North Shore Drive.

Wadsworth—Mrs. David Van Patten, Delaney Road

## Mrs. Lillian Handley Dies at Son's Home in Chicago, Burial Monday

Funeral services were held Monday in Chicago for Mrs. Lillian W. Handley, 71, a resident of Rte. 21, a mile north of Antioch who died last Thursday at the home of her son, George S. Handley, 1300 N. Laurel ave., Chicago.

Mrs. Handley formerly Lillian W. Wilgenburg was the wife of G. Samuel Handley. They came to this community seven years ago upon retirement.

Surviving besides the husband and the son, George, are a daughter, Mrs. Evelyn Kihlstrom Buffalo, N. Y., two sisters, Mrs. Lena Sponholz of South Bend, Ind., and Mrs. Edith Olson, Berwyn, Ill.

Four grandchildren also mourn her death.

Burial was at Downers Grove.

**Motor Mine, Said Gundstrom**  
"The shell was Frank Valeska's, but the motor was my own," said Gus Gundstrom regarding the Viking which won for him a cup at Detroit recently. He objected to the credit being given to the V. boat Valeska formerly operated.

## Mrs. Fred G. Chapp, 57 Dies of Heart Disease; Funeral Service Monday

Laura M. Chapp, 57 years of age, died at her home on North ave., at 8:15 a. m. Thursday Sept. 2, following a heart attack. Her death was unexpected and came as a distinct shock to her family.

Mrs. Chapp was born May 4, 1891 in Chicago and lived there until the time she moved to Antioch in 1939. Surviving are the husband, Fred G. Chapp and three brothers, Albert Snyder, Woodside, Ill.; Raymond C. Snyder, Chicago; and Fred Snyder, also of Chicago. A sister, Rose Landis, preceded her in death.

Mrs. Chapp was a member of Herman Sisters No. 28, Chicago; a member of Frozens lodge, Chicago; and St. Francis Xavier church, Chicago.

The funeral service was held Monday at St. Francis Xavier church with burial in Chicago.

## Triplets Born Yesterday To Petite Lake Couple Will Live Says Doctor

Triplets—two boys and a girl—were born yesterday morning to

Mr. and Mrs. John Zamanek of Petite lake at St. Therese hospital in Waukegan.

Dr. A. N. Berke, who delivered the infants, said that although they arrived two months prematurely, they all have a good chance to live. They are kept in incubators.

The babies born a few minutes apart are the first triplets born in St. Therese hospital in 20 years.

The 22-year-old mother gave birth to the first child, the girl who weighed 3 pounds and 6 ounces at 4:03 a. m. The second, a boy weighing 3 pounds and 12 ounces arrived at 4:12 a. m. and the third, a boy weighing 4 pounds and 6 ounces was born five minutes later.

The chance that triplets will be born is one in 50,000 births. The Zamaneks are also parents of a 23-month-old son. The father is a construction worker and is 23 years old.

## Red Cross Volunteer Workers Urgently Needed

Volunteers are urgently needed to help veterans, children, handicapped persons, and hospital patients in North Lake County jurisdiction according to Mrs. Louis Diamond, Volunteer Services chairman of the North Lake County Red Cross

Chapter. "Unprecedented post-war needs have created approximately 100 vacancies which must be filled by volunteers if those who depend on Red Cross assistance are not to be disappointed."

"People who can drive cars, sew, cook, teach crafts, use a typewriter, or, in fact, any person with ordinary skills and a few hours of spare time to devote to the service of his neighbors can materially help to lessen the hardships of postwar readjustment," chapter representatives state. "If a person has a real desire to help others and is willing to devote a little of his time to constructive community service, we can certainly find a place for him or her to serve."

"Most of the volunteers now serving have been active in Red Cross work for a number of years," Mrs. Diamond added. "They continue to serve, not only because they are needed, but, in most cases, because they find that there is nothing they can do in their leisure time which affords them so much satisfaction as they get from helping those who

otherwise face real hardship, real loneliness, or discomfort."

Further information about Volunteer Services can be obtained by calling Ontario 4044 or visiting the Red Cross office, 133 Belvidere, Waukegan, Illinois, or you may contact Mrs. Harry Krueger, at Antioch 128-W, who is a representative for the chapter in this area.

## Attends National College

Miss June M. Spangard, daughter of Mr. and Mrs. Frank Spangard, 606 Parkway ave., has been accepted for admission to National College of Education in Evanston with junior standing. The college prepares teachers for the elementary field of education.
